

Jordan Lee

Backend Software Engineer

Singapore | jordan.lee@example.com

PROFESSIONAL SUMMARY

Backend engineer with three years of experience building Node.js and TypeScript services. Experienced in REST APIs, PostgreSQL, Redis, automated testing and Docker. Seeking a Node.js backend developer role in Singapore.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, SQL

Backend: Node.js, Express.js, REST APIs, JWT authentication

Data: PostgreSQL, Redis

Frontend: React, HTML, CSS

Tools: Git, Docker, Jest, Supertest, GitHub Actions

WORK EXPERIENCE

Backend Software Engineer | Example Commerce Systems

Singapore | July 2023 - August 2026

- Developed 12 REST API endpoints for order and inventory management using Node.js, Express.js and TypeScript.
- Added Redis caching; reduced median product lookup latency from 240 ms to 95 ms in a staging benchmark.
- Wrote 80 automated tests using Jest and Supertest; maintained 85% line coverage for the order service.
- Implemented role-based access control and JWT authentication for internal users.
- Collaborated with four engineers on code reviews and weekly releases.

PROJECTS

Appointment Booking API | January 2026 - March 2026

Node.js, TypeScript, PostgreSQL, Docker

- Implemented booking validation, pagination and database transactions to prevent duplicate reservations.
- Configured GitHub Actions to run automated tests on pull requests.

EDUCATION

BSc in Computer Science | Example Technology College

Singapore | August 2019 - May 2023

LANGUAGES

English: Fluent | Mandarin Chinese: Conversational
