

Diana Koh

Principal Software Engineer

diana_koh@example.com | Singapore

PROFILE

Software engineer with 16 years of industry experience, including technical leadership. Interested in a hands-on individual contributor role; open to discussing scope.

EXPERIENCE

Quartz Bay Systems | Principal Engineer | Jan 2020 - Aug 2026

Set backend architecture standards and mentored eight engineers. Continued to implement Node.js and TypeScript services.

Led a PostgreSQL migration for three internal products and reviewed reliability plans.

Elm Circuit Technologies | Senior Backend Engineer | Jan 2015 - Dec 2019

Built REST APIs with Node.js, Express and Redis; introduced automated tests and CI.

Pine Arc Digital | Software Engineer | Jul 2010 - Dec 2014

Developed Java services and SQL reporting tools.

SKILLS

Node.js, TypeScript, PostgreSQL, Redis, Docker, AWS, system design, mentoring. No Kubernetes certification claimed.

EDUCATION

BSc in Computer Science | Westhaven College | 2010

ROLE PREFERENCE

Hands-on backend work. Prior leadership must not be removed or rewritten as junior experience to fit an entry-level posting.
