

ALEX MERCER

San Francisco, CA | 555-019-2834 | alex.mercer@email.com | linkedin.com/in/alexmercerc

PROFESSIONAL SUMMARY

Hands-on **Front-End Developer** with over a decade of deep technical experience engineering scalable corporate web applications. Having successfully led engineering workflows in previous phases of career development, intentionally pivoting back exclusively into a dedicated Individual Contributor (IC) capacity. Seeking a mid-level front-end engineering role to focus 100% of professional energy on direct code contribution, performance optimization, and tactical feature deployment without administrative or budgetary overhead. Brings immediate autonomy and zero training ramp-up time.

CORE COMPETENCIES

- **Languages & Frameworks:** JavaScript (ES6+), TypeScript, React.js, Next.js, HTML5, CSS3, Sass
- **Tools & Ecosystem:** Webpack, Vite, Git, GitHub Actions, Docker, JIRA, Jest, React Testing Library
- **Methodologies:** Agile/Scrum sprints, Component-Driven Development, CI/CD pipelines, Semantic Accessibility (WCAG)

PROFESSIONAL EXPERIENCE

Senior Lead Engineer / UI Specialist — *TechVanguard Systems*

2021 – Present

- Codes, tests, and deploys high-traffic customer-facing web applications daily utilizing React, TypeScript, and Tailwind CSS.
- Collaborates with product managers and UX designers to transform Figma prototypes into production-ready, reusable UI components.
- Refactored legacy state-management architecture to Context API, reducing global bundle sizing by 18% and accelerating page loads.
- Debugs cross-browser compatibility issues and resolves responsive design flaws across mobile, tablet, and desktop viewports.

Front-End Web Developer — *Innovate Digital Solutions*

2016 – 2021

- Built and maintained internal dashboard interfaces using Javascript and Vue.js, boosting back-office operational efficiency by 22%.
- Wrote automated unit tests with Jest, elevating codebase testing coverage metrics from 60% up to an 85% baseline.
- Managed code repositories, handled code review branches, and executed bug-fix deployments via automated GitHub Actions.

Web Developer — *PixelPerfect Creative Corp*

2013 – 2016

- Authored semantic, lightweight HTML5/CSS3 templates for over 40 external client e-commerce platforms.
- Optimized image configurations, script payloads, and server caching to shave 1.5 seconds off average mobile rendering metrics.

EARLIER PROFESSIONAL HISTORY

Junior Developer / UI Assistant — Apex Media Studio
Web Production Intern — Vanguard Publishing House

EDUCATION & CREDENTIALS

Bachelor of Science in Computer Science — State University (2012)
Certified Advanced React Developer — Tech Alliance Group
